

Code: MYSQL code to create database in AWS-RDS

```
CREATE TABLE `db1_pr3`.`Applicants` (  
  `Applicant_id` int not null,  
  `Age` DECIMAL(2,2) not null,  
  `Years_at_employer` decimal (2,2) not null,  
  `income` decimal (8,2) not null,  
  `credi_card_debt` decimal (6) not null,  
  `Auto_debt` decimal(6) not null,  
  `Default` INT not null,  
  PRIMARY KEY (`Applicant_id`));
```
